LET'S KNOW ABOUT **The PHILIPPINES**

Philippines is located in Southeast Asia. Nearby countries are Hong Kong, Japan, Taiwan, Singapore, Malaysia, Indonesia.

Philippines is the world's 12th most populous country with a population of 130 million. The Capital is Manila; and Financial Capital is Cebu - The Mega City, where Multiple ethnicity and cultures are found.

The Philippines is known for its hospitality and joyfulness.. They also enjoy the number of festivals that are held for every locality which reflects the country's rich and diverse culture and traditions.

Studies show that it is more affordable to study in the Philippines compared to other countries offering high quality education. It is because a person can live a modest lifestyle here in limited spending in a month.

WEATHER

Summer is from March to May.

Monsoon is from June to October.

November to February is cool with fair weather.

Average day temperature, is 22.2 C to 32 C with humidity at 77 percent.

Do you know that
PHILIPPINES is the
1ST CHOICE
for Indian students for
MBBS Abroad.

Thousands of Indian students
are studying MBBS/MD
in Philippines.

- Philippines is Worlds **3rd Largest English Speaking Country**, 94% of Population speak English.
- Philippines Medical Universities are widely renowned in many countries for the superior standard in Medical education and also are listed in the **MCI, WHO, IMED, FAIMER and ECFMG** medical education directories.
- According to American Physician Statistics, **one among ten doctors in the USA studied at Philippines Medical university.**
- The Climate of the Philippines is **Tropical Climate**. Varies from **23 °C to 32 °C** throughout the year, which is similar to the Indian climate which helps Indian students in settling with ease.
- **Types of Diseases in Philippines is exactly Similar to India**, its great advantage to Students who want to practice in India.
- **Extensive Clinical Exposure and Hands on Practice** in Hospitals only possible in Philippines.
- As its **12th most populous country in the world**, hence you will have greater opportunity to practice with a varied and large number of Patients.
- Philippines was a colony of USA for 50 years. During this time, USA designed Philippines education system similar to their system. The medical course in the Philippines is called the MD (Doctor of Medicine) exactly same to medical course of the USA.

ABOUT ATMIA EDUCATION

Atmia Education is founded and managed by Dr. Hasmukh Vaghela for more than a decade now. Maximizing his academic excellence, being among the Topper in SSC and HSC in Board Examinations, Dr. Vaghela served thousands of students and individuals reach the peak of their career, creating dreams into realities. Atmia as an institution has established a culture of excellence and quality. Its exemplary performances resulted in the achievements of prestigious recognitions and certifications making it as an organization compliant with international standards.

Being a notable institution, Atmia provides comprehensive services for its students sent abroad for MBBS (MD). Counseling, Admission, Documentation, Visa and Travel Arrangements, Hostel Accommodation, provision of Indian food and safety of students are its prime strengths. Facilities of Face-to-Face and Online Coaching for NEXT (National Exit Exam)/USMLE/PLAB are among its premium implemented programs to ensure that all needs of students are totally taken-care-of.

We just don't say, we do it. This is the reason why there are 4000+ students and families who fully trust Atmia Education - The Gold Standard for MBBS Abroad, with the most awarded India's 12 Legendary Medical Faculty.

Through our initiatives there are 1000+ Indian students graduated and now practicing as Doctors, in various leading hospitals in India and the rest of the world. The result of our efforts speaks, "Record Breaking Success, in MCI Screening Test - 2019-2020 Examination" with 91% Passing Rate (FMGE- Foreign Medical Graduate Examination).

DR. HASMUKH VAGHELA

President - Atmia Education

Atmia established the most credible and trusting relationship with its partner Universities. We do not deal with multiple universities, we just deal with the Top Universities for MBBS Abroad and nurture it to be the best in the country with finest features and provisions, making it cost effective, pre-eminent and worthwhile.

Mutual respect and transparency in all its dealings are highly observed such that commissioning and acting as agents are not in the system of Atmia Education.

"We are not Agents, we are Parents"

Education through Atmia Education has been **CATEGORIZED** into mainly **THREE DOMAINS**

SKILL

The first is the domain of 'skill', Sadhan. These are those medical skills and treatment equipment needed in the medical field that help students learn convincingly. They will learn to employ necessary instruments and medicines for treatment. If one has to look for a concept from the Indian philosophy that has an equivalence with this domain, that would be the concept of SADHAN.

KNOWLEDGE

The second is the domain of 'knowledge', Sadhana. It pertains to the knowledge base the students must acquire from subject areas in the medical field of varying nature. From this base should flow, meticulously, gathered and researched information needed during the entire process of treatment. Again, an equivalent concept from the Indian philosophy to represent this domain would be SADHANA.

EXPERIENCE

It is the third domain of 'experience' that becomes the vital core of the treatment process, Sadhya. The total and composite learning from this domain is meant to make students think laterally and intuitively, understand medical principles and translate these principles into practical lessons which in fact is the very remedies of the stated diseases. This equivalent concept from the Indian philosophy, obviously is SADHYA.

ATMIA EDUCATION IS THE PRINCIPAL INDIAN ASSOCIATE OF
UNIVERSITY OF VISAYAS - GULLAS COLLEGE OF MEDICINE, PHILIPPINES

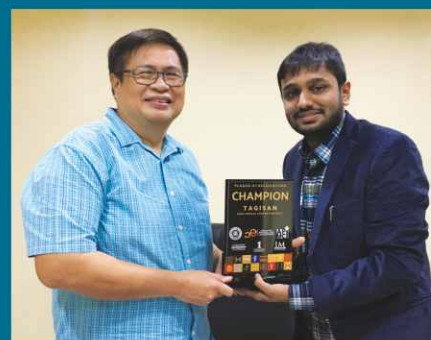

Join the thousands of Indian medical students studying in PHILIPPINES

Recognized by Government of
India & Philippines.

International award winning institution
for sending largest number of Indian
students abroad for MBBS.

Uv's sole authorized
representative of India

OUR LEADERSHIP

DR. CHIRAG VAGHELA
CEO - ATMIA EDUCATION

DR. MANISH VAGHELA
COO - ATMIA EDUCATION

WHY ATMIA

- Most Reputed and Most Reliable Institution
- An institution run by highly qualified and distinguished professors.
- An institution that helped thousands of students to realize their dreams.
- First preference of thousands of students from all over India.
- Students are provided complete guidance for Passport, Visa and Educational Loan.
- Students educational report is e-mailed to guardians every six months.
- Atmia Education takes due care of every student in Philippines.
- Atmia Education traditionally celebrates festivals like Diwali, Navratri, Holi, Eid and similar activities every year with enthusiasm.
- When students' parents wants to visit Philippines their visa, accommodation and foods are arranged by the institution.
- Complete preparation for NEXT, MCI, USMLE and other exams during the studies itself.

Comparison of Educational Programmes of PHILIPPINES with other countries

Philippines follows the American education system.

English is the largest spoken language in Philippines and is their official language. Philippines was ruled by America formerly and is associated with America today. 94% of the population speaks English and is the 3rd largest English-speaking country after USA and UK.

Students talk to patients in English and get great clinical expertise.

Education is as per American pattern, hence clearing American Medical Licensing Exam (USMLE) is easier.

Affiliation with American colleges for rotational internship and after completing the studies can practice in USA.

Philippines is a tropical Country. It has similar diseases as India like malaria, typhoid, chicken guinea, swine flu etc., so they get exposure to diseases.

Indian vegetarian food and Gujarati food is easily available.

Weather : tropical hot like India temperature (21 to 37 degree Celsius).

In Philippines after standard 12 there is 4.5 years study programme to do MBBS.

The passing ratio of Philippines colleges are as high as around 90% in the screening tests of MCI and USMLE.

In Philippines the cost of lodging, boarding and studies is very low.

To and fro flight ticket from India is very cheaper.

India and Philippines have very good relations.

The practice is made over a real dead body.

American education system is not followed

Chinese, Russian and other languages are spoken. The MBBS students have to learn their local languages. On 4 to 5% local people speak English.

Patients speak local languages. It is difficult to learn Chinese, Russian and other local languages.

Education is not as per American pattern, hence clearing American Medical Licensing Exam (USMLE) is hard.

Colleges of these countries have no such affiliation with America

Being countries with cold and hot weathers diseases commonly found in India can not be studied in-depth.

Indian vegetarian food is very costly and not easily available.

Weather: cold and hot temperature, very cold for 3 months, temperature in winters sometimes go down upto 20 degrees.

In all these countries the study programme is of 6 years.

Colleges here have very low passing ratio in the screening tests of MCI and USMLE.

The cost of lodging, boarding and studies is very high.

To and fro flight ticket from India is very high.

The relations of India with these countries are very delicate

The practice is made over a plastic body.

CAREER OPPORTUNITIES

Students have to give the FMGE (commonly known as the MCI Screening test); comply with MCI process to register. Once Registered – they are eligible to apply for Government jobs in India and to join Post graduate courses in India.

USMLE : All students who study in the Philippines are eligible to give USMLE and go to the USA for practice after satisfying the norms needed for licensure and registration. The Medical Colleges are listed in IMED Directory (FAIMER Directory) and approved by the Educational Commission for Foreign Medical Graduates (ECFMG).

California Board of Medicine : Colleges in the Philippines are listed in the California Board of Medicine's Directory of approved International Medical Colleges. This means after passing from Philippines, qualifying USMLE and complying with other process they are automatically approved to register and practice in the State of California.

California is the richest state in the USA and accounts for 13% of the Economy of the USA.

Doctors here are amongst the highest paid in the USA.

American Pattern : The Medical course is patterned on USA. This gives a strong Advantage to medical professionals educated in the Philippines who are interested in the US. Students can go for clerkship rotations (internship rotations) to the USA from the Philippines. Some colleges have tie ups for this. Else students can source out their own rotations and get permission to go to the USA which will be given credit by the School for clerkship.

Other Countries : The degree is valid in over 180 countries: Singapore, Gulf Countries, New Zealand, Australia etc. Each country has a license / registration process for Doctors – as this profession deals with humans and is regulated. You need to pass a competency test. Some countries may have a language test, job visa requirements etc – each of which needs to be complied with.

Degrees Awarded : MD or Doctor of Medicine, called MBBS in India. MCI gives MBBS registration in India as will UK, Singapore and Gulf authorities. In USA you will get a MD certification. What is known as MBBS in India and other commonwealth countries is called MD in the USA and in The Philippines.

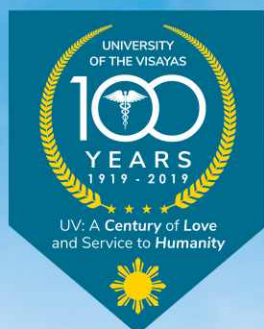

GULLAS COLLEGE OF MEDICINE PHILIPPINES

University of the Visayas

#1 MOST PREFERRED
MEDICAL UNIVERSITY
BY INTERNATIONAL
STUDENTS

AFFILIATIONS

The University Of The Visayas was established in 1919, making it the first university in Cebu City. Existence of university is over a hundred years. With more than **30,000 Students in Campus and 3000+ International students from India and other parts of the world.**

FMGE COACHING

MCI SCREENING TEST

FMGE stands for the Foreign Medical Graduate Exam, student who have graduated from any foreign University; in order to practice back in India needs to Appear, in this Exam conducted by NBE (National Board of Education) under MCI (Medical Council of India).

This is one area where UVP is able to set itself apart and is able to show the quality of its education. In Association with Atmia Education, year after year, UVP has been able to provide the highest passing percentage in the MCI Screening Test (FMGE) amongst all Foreign Medical Colleges over the Globe. With an average first time passing percentage of 85% since the first batch of students took the exam. The students have also consistently been amongst the top marks in the examination with UVP students holding the no.1 rank in the MCI Screening test on multiple occasions.

The most Recent batch from UVP scored performed exceptionally once again in the MCI Screening Test with the students accumulating an overall pass percentage of 86%. Four students of UVP also had the distinction of being amongst the top 10 overall marks in India.

To even further the high pass percentage of our students, Atmia Education also conducts special coaching classes for our students with the India's Leading faculty specialized in FMGE Preparation.

CEBU CITY

Cebu city is the most ancient yet a most developed 1st class; highly urbanized Mega city of Philippines. Rapid economic growth has also spawned the emergence of a modern urban skyline and the development.

It's no surprise TripAdvisor named Cebu the only Philippine City to make in the Top 25 list for best destinations in Asia.

The cebu city's infrastructure is quite developed with numerous ultra-modern shopping malls and high-rises, an airport lauded as one of Asia's best and an extensive road network throughout. Its surrounded by wonderful mountains and islands.

More than 15 Indian Restaurants are there in Cebu City, Philippines catering delicious Indian food. Many Indians staying in Cebu City and There are Indian Temples too.

Cebu city has one of Biggest International airport.

Cebu city is best for Education.

"Cebu City is modern energy and rich traditions"

TESTIMONIALS

OF OUR STUDENTS

UV Gullas, has all modern facilities available, and tutors are supporting as well. Atmia Hostel is well furnished and it's walking distance from college. They provide vegetarian Indian food and CEBU is a safe city to live nothing to worry about safety here.

Doshi Harshil
(Gujarat, India)

Atmia Education provides attention towards each student. College has all modern facilities like laboratories, library, student lounge, classrooms (a/c), Special examination halls, best time schedule and college also organize special events and we celebrate all Indian festivals also.

Parmar Krutarth
(Gujarat, India)

I always had dream to become doctor which is fulfilled, The College has all the modern amenities in Classroom, Labs, Clinical Instruments. The Communication system between student and faculty is very friendly. The Entire staff is very supportive. Thank you.

Renu Chaudhary
(Rajasthan, India)

Hello Friends, I got to Know About the UV College from Dr. Chirag, He is like an elder brother always supports us, makes sure all our needs are fulfilled, All facilities in the college is awesome and I recommend UV to all aspiring students planning to take course of medicine go for the Best.

Sneddon Peire
(Maharashtra, India)

Amazing team working for our Service! UV - GULLAS COLLEGE OF MEDICINE. Along with the Excellent Education also get Hands on Practice.

Joshi Vandit
(Gujarat, India)

I am Currently in 1st Year, I don't think could have found better college then UV Gullas. I Thank Atmia Education for the right choice of my Medical College. Excellent.!

Ria Yadav
(Maharashtra, India)

When I was planning to select college for MBBS Abroad, I surveyed all Colleges I can say I had communicated with almost all colleges representatives, consultants. Finally me and my parents choose UV. I am proud of My Decision, Friends to be honest, You will not find a better place to study, we have everything in campus, especially the best faculty and the way they support and treat us, thank you atmia education especially entire team.

Shubham Aswani
(Chhattisgarh, India)

I am Studying in UV Gullas college of Medicine I was suggested this college by Atmia Education, students not only from India entire world comes here, my best friend and classmate is from the basic question arose in my mind before I came here, will I get good food as I am vegetarian and these is Non-Veg Country, Atmia Provides me the best food, hostel here is very good and security is excellent. If we have any difficulty seniors are also very supportive and staff of atmia is always there to help. UV is the Best.

Simran Jalandre
(Madhya Pradesh, India)

I am Practicing as a General Physician, my daughter is currently studying in Gullas College of medicine. Being a doctor, I wanted to personally see where my daughter is going to study, I personally visited Gullas and found that Education here upto is to its mark and the management is Excellent. The laboratories is more better compared to India, I was correct to choose this University for my Daughter and Atmia Education, What they said and I Expected UV is far more better than that.

DR. Vishnudan Zula
(Gujarat, India)

Biggest Advantage There is that during our Clinical Internship, we had hands on practice we were assigned patients directly, though there is supervision of the senior doctors. By the End of our Internship itself we were prepared to Practice in the Real world by my self.

Dr. Zarna Dhamecha
